### Policy Statement

**Criteria**

1. The honorary doctorate is the highest academic recognition Indiana University can bestow. Candidates for these degrees should have demonstrated in their life and in their work high standards of excellence as evidenced by scholarship or creative activity; by professional development and achievement; by public service to the world, the nation, the state, or the community; in wholehearted commitment to the development of Indiana University; or through excellence in any calling or occupation which visibly contributed to the development of society and serves as a model for present and future generations. In all honorary degree candidates these scholarly, creative, professional, service or occupational achievements should be placed in a
framework of high personal integrity and concern for the public good. By awarding honorary degrees to women and men of such outstanding qualities, the University seeks to present to its several constituencies veritable models worthy of emulation and respect. Students, faculty, alumni, and the people of the state as a whole should recognize in the honorary degree recipients qualities they consider particularly relevant to their own experiences, whether these be scholarship, creative activity, a profession, public service, University service, or a vocation.

2. Candidates for the honorary degree may have, but are not required to have, ties to the state of Indiana or Indiana University through birth, residence, education, service, or notable achievement. Allowing for a continuum of possibilities, one nominee might have a strong Indiana connection with considerable accomplishments, while another might have national or international distinction tied to scholarly endeavors at IU.

3. Honorary degrees are not normally awarded to candidates for political office or to elected officials currently in office or to faculty, staff, or administrators currently in service. Retired or former faculty members must meet the same high standards for nomination as all other honorary degree candidates.

4. The honorary degree may not be awarded in absentia; but, if an approved nominee cannot be present at the convocation for which the degree was offered, the recommendation for the degree shall be reviewed annually by the Honorary Degrees Committee.

fields, Indiana University has an equally important responsibility to identify and honor persons of national and international eminence who are the leaders of their fields of creative or professional endeavor.

The honorary doctorate is the highest academic recognition Indiana University can bestow. Thus, candidates for the honorary degree must have demonstrated the highest levels of excellence as scholars, artists, professionals, or public servants. Equally high expectation is placed on their personal integrity and concern for the public good. In recognizing such persons, the university identifies women and men who can serve as role models for students, faculty, and alumni of Indiana University, indeed, for all persons of the state, to respect and emulate.

Candidates for an honorary doctorate can be nominated by any member of the university family. Nominations are submitted for the first stage of review to the Honorary Degrees Committee (HDC), which is a standing committee of the University Faculty Council. Some campuses have established faculty committees to initiate nominations and provide for preliminary review at the local level.

Nomination materials need not be extensive but should indicate the extraordinary nature of the candidate’s life and contribution and should document the backing of the campus faculty and administration. The following initial
